

RATNESH SINGH CHAUHAN

Full Stack Developer | MERN Stack | Software Engineer

Gwalior, Madhya Pradesh, India | Mob +918982207495 | LinkedIn: [linkedin.com/in/ratnesh-singh-chauhan-892312277](https://www.linkedin.com/in/ratnesh-singh-chauhan-892312277) | Email: ratneshsinghchauhan22@gmail.com | Github : [ratneshgf \(Ratnesh singh chauhan\)](https://github.com/ratneshgf) | Leetcode: https://leetcode.com/u/ratnesh_123/

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student with a strong foundation in software engineering, Data Structures & Algorithms, Python, MERN Stack, SQL, and modern web technologies. Hands-on experience in developing scalable full-stack web applications and AI-powered solutions using clean architecture, REST APIs, and modern development practices. Passionate about solving real-world problems, building impactful production-ready software, and continuously learning emerging technologies.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript (ES6+)

Frameworks & Technologies: React.js, Next.js (App Router), Node.js, Express.js, Flask, Tailwind CSS

Databases: MySQL, Relational Database Design, Database Query Optimization, JSON-based Storage

Cloud & Tools: Cloudinary, Git, GitHub, VS Code, OpenCV, Claude, Cursor, Excel, Firebase, Supabase, Kiro, Antigravity

Data Science: Pandas, NumPy, Scikit-learn, Matplotlib, Flask, EDA, Machine Learning

Core Concepts: OOP, Data Structures, Algorithms, Version Control

Operating Systems: Windows, Unix/Linux

PROJECTS

FeedForward — Food Waste Reduction Platform | MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Socket.IO, JWT, Cloudinary

- Built a full-stack MERN web application connecting food donors (restaurants, hotels, college messes) with NGOs and volunteers to combat food wastage in real time.
- Implemented JWT-based role authentication with three distinct roles — Donor, Receiver, and Admin — ensuring secure and scoped access control.
- Engineered real-time food claim and pickup workflows using Socket.IO, reducing coordination delays between donors and receivers.
- Integrated Cloudinary for cloud-based image storage and developed an admin dashboard with live analytics for platform oversight.

ResumeForge AI — AI-Powered Resume Analyzer | React.js, TypeScript, FastAPI, Python, Gemini AI, spaCy, NLTK, Sentence Transformer

- Developed an AI-powered resume analysis platform that performs ATS scoring by matching resumes with job descriptions using NLP techniques, including semantic similarity, keyword matching, and skill extraction.
- Integrated Gemini AI to generate ATS-friendly resume enhancements, personalized suggestions, and optimized resume content based on target job descriptions.
- Built a React frontend and FastAPI backend supporting PDF resume parsing, AI-powered analysis, detailed ATS reports, and secure REST APIs for seamless user experience.

INTERSHIPS

MERN Stack Developer Intern — Codec Technologies Pvt. Ltd. | Jul 2025 — Aug 2025

- Completed a 1-month AICTE & ICAC approved MERN stack internship, gaining hands-on experience in building real-world full-stack applications using MongoDB, Express.js, React, and Node.js.
- Collaborated under a program conducted in partnership with Google for Education, earning a certification awarded by the Program Manager, Dr. Anurag Shrivastava.

Java Full Stack Developer Trainee — EduSkills Foundation | Jan 2026 – Mar 2026

- Completed a 10-week intensive Java Full Stack training program, covering HTML, CSS, Bootstrap, JavaScript, jQuery, Core Java, Advanced Java, Spring Boot, Hibernate, MySQL, Git, and version control.
- Applied full-stack development skills through structured, hands-on project assignments across both frontend and backend layers.

EDUCATION

B.Tech in Computer Science & Engineering

Amity University Madhya Pradesh (AUMP), Gwalior | Expected 2027

CERTIFICATIONS

- Deloitte Data Analytics Virtual Experience — Deloitte (Forage)
- Tata GenAI-Powered Data Analytics — Tata (Forage)
- AWS Solutions Architect Job Simulation — AWS (Forage)
- EduSkills TechCamp on Google Android Development — EduSkills Foundation

ACHIEVEMENTS & ACTIVITIES

- AceHack 4.0 Hackathon — Participated in the national-level hackathon, building and presenting a technical solution under a competitive time constraint.
- Active contributor on GitHub with MERN stack projects demonstrating REST API design, component architecture, and real-time systems.
- Smart India Hackathon --- Participated in smart india national level hackathon , and finalized amongst 5k+ participants.
- Google Android Workshop --- Attended a google android workshop learn application development conducted by eduskills foundation.
